lost links – vol. 1

deleted, unreleased and forgotten tracks.

all these pieces were created to appear on previously published albums. for various reasons, they were not included, and remained in my archives. i usually do not delete any of my pieces; i know that, at some point, simply because of the passing of time, they acquire a special character, and their time to be revealed appears.

all tracks produced by max corbacho between 2003 and 2009, barcelona, spain.

max corbacho: sequencing, synthesizers and atmospheres.

cover image created by max corbacho with apophysis software.

all music copyright © 2011 max corbacho/sgae
