disturbed earth, shane morris_ SUBURBAN CATACOMBS

"suburban catacombs" is about what goes on under suburbia, the day to day...literally, the pipes, storm water drainage, electric cable, communication, internet.

shane morris: synths, electronic and acoustic percussion, field recordings and effects.

disturbed earth: production, construction, reel-to-reel tape delay, electric and nylon string guitars, pedal harmonium, percussion, field recordings

geoff small: release coordination

steve brand: design and photography
